

Take Your HR Hat Off and focus on *your business*.

You could spend hours, days, weeks studying and deciphering over 700 complex regulation laws... just in time for the government to revise them.

It only takes one violation to cost you more than a year's worth of HR management.

"I was literally getting buried by all the HR stuff. Worker's comp, scheduling vacation days, maternity leave, hiring temps... it was really becoming too much to handle, luckily Pinnacle's Human Resource Outsourcing helped dig me out."
- Melissa Pratt
