Green Key Resources, LLC Selects Corridor's Next Generation Contract Management Software

Wakefield, Mass. (PRWEB) September 26, 2017

Green Key Resources, LLC plans to leverage Corridor's Contract Management Software application to enhance and centralize its entire contract management process.

Corridor Company, Inc., the leading provider of contract lifecycle management software powered by the SharePoint and Office 365 platforms, is pleased to announce the selection of its Contract Management Software by Green Key Resources, LLC, a leading national executive recruitment firm. As Green Key implements its ambitious expansion plan into the highest growth business sectors and industry verticals, Corridor's Contract Management application will be a key element of the company's process consolidation efforts and will provide a centralized contract repository with robust reporting capabilities.

Green Key provides permanent and temporary job placement by building strong ongoing relationships with both clients and candidates. Effective contract management is crucial for the company as client contracts may include terms and clauses that require a more robust negotiation and approval process. As the company enters a period of unprecedented growth, it is essential that contracts progress expeditiously through the pipeline and that an accurate contract can be found at the click of a button. Corridor's contract management solution will give Green Key executives the workflow and reporting they need to drive every contract to the fastest closure.

Green Key chose the Corridor contract management solution because of its intuitive interface, support of high contract volumes, and its ability to provide multiple templates that will reduce the company's reliance on "one-off" agreements.

"We knew that with our growth accelerating, we needed a more robust tool to manage our contracts. As soon as we saw what Corridor could provide, we knew that their intuitive interface was just what we needed to help our team cope with the growing workload without compromising our commitment to excellent client service," said David Singh, CTO of Green Key Resources.

"We are excited to add Green Key Resources to our growing list of satisfied contract management clients. They will be pleased to see how our template repository will streamline their current reliance on specialized agreements, and make their contract process more consistent and reliable," said Russ Edelman, President and CEO of Corridor.
