\$2.35 billion

The amount dairy companies contribute to Mississippi's GDP

0.80%

The amount dairy companies contribute to the U.S. GDP in 2017

1.09%

A further 8,674 jobs

were indirectly supported by the dairy industry through suppliers and the indirect impact of the industry's expenditures.

DAIRY MATTERS

Dairy foods deliver a unique combination of nine essential nutrients including protein, vitamin D and potassium.

The Dietary Guidelines for Americans recommend three servings of low-fat and fat-free dairy foods per day.

Consuming dairy products provides health benefits, especially improved bone health.

Dairy foods provide about 67 percent of the calcium available in the U.S. food supply.

MISSISSIPPI DAIRY WORKS FOR THE WORLD

Global demand for protein-rich dairy is rising.

Consequently, U.S. dairy exports have more than quadrupled since 2000, to \$5.5 billion in 2017. Our top five markets are Mexico (\$1.3 billion), Southeast Asia (\$690 million), Canada (\$636 million), China (\$577 million) and Japan (\$291 million).

That's good news because dairy exports create Mississippi jobs and lift the state's economy.
