1.02%

The amount dairy companies contribute to the U.S. GDP in 2017

1.09%

A further 11,610 jobs

were indirectly supported by the dairy industry through suppliers and the indirect impact of the industry's expenditures.

DAIRY MATTERS

Dairy foods deliver a unique combination of nine essential nutrients including protein, vitamin D and potassium.

The Dietary Guidelines for Americans recommend three servings of low-fat and fat-free dairy foods per day.

Consuming dairy products provides health benefits, especially improved bone health.

Dairy foods provide about 67 percent of the calcium available in the U.S. food supply.

NEVADA DAIRY WORKS FOR THE WORLD

Global demand for protein-rich dairy is rising.

Consequently, U.S. dairy exports have more than quadrupled since 2000, to \$5.5 billion in 2017. Our top five markets are Mexico (\$1.3 billion), Southeast Asia (\$690 million), Canada (\$636 million), China (\$577 million) and Japan (\$291 million).

That's good news because dairy exports create Nevada jobs and lift the state's economy.

NEVADA DAIRY EXPORTS BY THE NUMBERS

20
dairy farms

4
dairy plants

231 Nevada jobs
created by dairy exports

\$24 million
in dairy exports

\$45 million Nevada
economic impact from dairy exports

Sources: Calculations are estimates by the U.S. Dairy Export Council and National Milk Producers Federation based on 2017 data from the U.S. Department of Agriculture and the U.S. Census Bureau. Economic impacts are estimated using multiplier formulas from the U.S. Bureau of Economic Analysis. State job estimates do not include "spillover" jobs generated by exports originating in another state.
