

Maintain confidence and accelerate your ability to quickly deliver results with Virtual Coaching for Change Practitioners. Virtual Coaching gives you access to an experienced change management advisor through a combination of scheduled, coaching calls and on-demand phone and email support.

WHO IS THIS FOR?

Prosci Change Management Certification graduates who are:

- Facing real-world challenges of implementing change management on projects
- Implementing the Prosci 3-Phase Change Management Methodology, Prosci ADKAR® Model and Prosci Change Management Tools
- Being held accountable to deliver project objectives and outcomes

WHY SIGN UP?

You will benefit from Virtual Coaching if you need to:

- Accelerate the expected benefits and objectives of your project
- Engage and mobilize the people who impact change success
- Anticipate and mitigate change barriers by prioritizing what to focus on and who to engage
- Make pragmatic change management decisions underpinned and validated by best practices
- Follow proven checklists of change management activities customized to where you are in the process and the support you need

HOW TO ENROLL

\$2000 for 12 months of one-on-one virtual change management coaching.

Email solutions@prosci.com to get started!

STRUCTURE

Step 1: Discover & Align

- Enrollment, introduction and articulation of clear expectations
- Advisor conducts structured needs assessment
- Advisor and participant co-create and agree on the prioritized, tailored plan for Phase 2 support
- Advisor and participant co-create and agree on the desired outcome (the finish line)

Step 2: Tailored Support Plan

- Tailored support topics based on agreed upon challenges and priorities
- Review top change challenges and project progress
- Define next steps at the end of each call
- Flexible coaching schedule

Step 3: Execute Tailored Support Plan

- Drive Adoption and usage of your change
- On-demand, ongoing email and phone support
- Phone/live video coaching sessions
- Participant-initiated questions:
 - Technical tool/process support
 - Best practices application
 - Interpretation/application of assessment results
- Time-sensitive change barrier resolution
