

With a Prosci Portal All-Access subscription, organizations can accelerate the development of their change capability by providing change practitioners and leaders of change with unlimited access to 50+ of the most advanced research-based tools and resources for managing the people side of change.

ACCESS TOOLS TO SUPPORT EVERY PHASE OF THE CHANGE PROCESS

Whether making the case for change management, applying change management on a project or measuring change management effectiveness, the Prosci Portal has tools to support change management work at every phase of the change process, including the following sought-after resources:

- **Practitioner eToolkit:** to holistically apply change management plans and methodologies at every stage of the project cycle
- **CMROI Calculator:** to calculate the people-dependent portion of project results
- **PCT Analyzer:** to assess and manage project health
- **ADKAR Dashboard:** to track and guide individual transitions through change
- **The eBest Practices:** for at-your-fingertips research and findings
- **ECM Roadmap:** to institutionalize change management capabilities and competencies
- **eBest Practices Audit:** to align projects with change management best practices

DEDICATED PORTAL ENVIRONMENT

The Prosci Portal Enterprise All-Access subscription provides access to the Portal through a dedicated and co-branded Portal platform that includes internal administrative power to manage employee accounts and access.
