

## Listen to Employees and Gather Feedback

It is important to follow-up with employees to understand how the change is working. Many teams fall into the trap of completing their change management checklist without listening to what employees have to say. The feedback you gather will be helpful in developing corrective actions and post-implementation change management activities.

There are a number of different ways to gather employee feedback. The employee feedback template provided below is a formal approach based on The ADKAR<sup>®</sup> Model.

## **Employee Feedback Template**

Rank the following statements (1=strongly disagree, 5=strongly agree) $\checkmark$
