- 50 sheet document feeder

- 10.9 cm colour touchscreen control panel

- Automatic two-sided printing

- 2 Hi-Speed USB 2.0 Host ports

- 300 sheet output

BMS Device Support

As a managed print customer, our support plan ensures your uptime is maximised, so you can print efficiently and keep costs down.

Your plan includes:

- Delivery, installation and training
- Toner
- Replacement parts
- Labour
- Local help desk for phone support with our qualified technicians
- Onsite call service during normal business hours
- Automatic meter readings, toner & waste toner alerts

(Included on compatible equipment with suitable network settings. Our team can confirm this inclusion once you have decided on your preferred devices and we have checked that your network has the required settings.)

Your plan is underpinned by our standard of excellence in quality call procedures. As the only local organisation of our kind that participates in the Pros Elite global benchmarking program, we're very proud of our #1 ranking for first call efficiency. This ensures your device uptime is truly optimised - in turn keeping you & your team more productive.

Finishing & Accessories (optional)

- External stapler
- Sorter
- Holepunch - choose from 2, 3 or 4 holes
- Keyboard
- 3x 500 sheet tray and stand
- 500 sheet tray

- Conduct remote diagnostics
- Upgrade device firmware
- Monitor and manage supplies

HP Jet Advantage (optional)

- Completes the security check cycle on your devices
- Automatically checks and fixes any affected device security settings across your fleet
- No need for IT to intervene

* Finishing options are compatible with many, but not all devices. Please consult with our team for more specific information in relation to your preferred device.

Our commitment to the environment

We recognise that the print & technology devices we sell have an impact on the environment.

To minimise our footprint - and that of our customers, we actively participate in four programs.

printreleaf EXCHANGE

You have the opportunity to certifiably reforest every single piece of paper that is consumed on your BMS managed print devices via Printreleaf.

Close the Loop

Planet Ark recycle all our waste & toner cartridges via their Close the Loop program. We encourage all our customers to join this free program.

SIMS RECYCLING SOLUTIONS

All used print devices are refurbished (when suitable), used for parts or securely recycled via SIMS Recycling Solutions.

A.G.M Recycling Environmental Pty Ltd

Upon arrival to our warehouse, we manually strip and sort all device packaging. These materials are then recycled by AGM Recycling Environmental.
