Abundant - thriving, full, lavish, generous, overflowing

We are passionate about life at Care Net: babies' lives, women's lives, men's lives, your life. But we are particularly excited about abundant life.

I want to invite you to join us in sharing compassion, hope, and help with anyone considering abortion by offering them realistic alternatives and Christ-centered support ([read our mission](#)). With more than 40 years of experience equipping pregnancy centers to thrive, we understand the challenges you face and we have the research and resources to help you overcome them.

If you are exploring Care Net affiliation, please know that it would be our privilege to serve you, pray with and for you, and equip you for excellence as you invite your clients to share in the abundant life Jesus came to offer all of us. Won't you partner with us?

Yours for abundant life,

A blue ink signature of Roland C. Warren.

Cynthia C. Hopkins
V.P. of Center Services & Client Care

"Speaking the truth in love, we will grow to become in every respect the mature body of him who is the head, that is, Christ. From him the whole body, joined and held together by every supporting ligament, grows and builds itself up in love, as each part does its work."

- Ephesians 4:15-16 (NIV)

“The vast amount of experience that Care Net has is very important to me.”
- Center Leader

MEDICAL SUPPORT

Care Net’s Medical Advisory Board (MAB) is comprised of a select group of credentialed physicians, scientists, and other medical professionals. The Board reviews and approves the medical content in Care Net materials including client education resources, training materials, and Care Net statements, on a variety of medical issues related to pregnancy, abortion, and sexual health.

The MAB is chaired by Care Net’s National Medical Consultant, Dr. Sandy Christiansen, who is a board certified OB-GYN, and the medical director of a Care Net center. Dr. Christiansen develops Care Net’s best practices for medical services and consults with affiliated centers. Care Net’s medical best practices are based on standards and guidelines from such groups as the American Institute of Ultrasound in Medicine (AIUM), the Centers for Disease Control (CDC), and other nationally recognized medical organizations.

This fee is pro-rated for new affiliates who join after June 30th.

Download the Affiliation Application

Questions about affiliating? Email info@care-net.org

STARTING A PREGNANCY CENTER

Care Net offers provisional affiliation for centers that are in the early stages of development. To view the differences between provisional and full affiliation, review our chart below. For more information about starting a center, [click here](#).

Provisional affiliation allows developing centers to access some of the benefits Care Net provides to centers already serving clients.
