💡 **TIP:** The device will turn on as soon as it is plugged into a power source.
It may take your router up to 3 minutes to power up before your students can connect.

Router LED Light Explanation

⏻ **Power:** Green = Powered on

📶 **Wi-Fi:** Green = On and operating normally

📍 **GPS:** Blue = GPS locator is on

📡 **Modem:** Solid Green = Active Connection

📶 **Signal Strength:** Blue = 4 solid bars is the strongest signal

How Students Connect to Wi-Fi:

SSID: _____   **Password:** _____

If a student cannot connect, have them try again after 5 minutes.

If all students cannot connect, double check that the modem LED light is solid green
(see front for explanation).

Still not solid green? Unplug the router for 30 seconds, plug back in, and wait 3 minutes before testing again.
