

Student Tech Devices in the Classroom

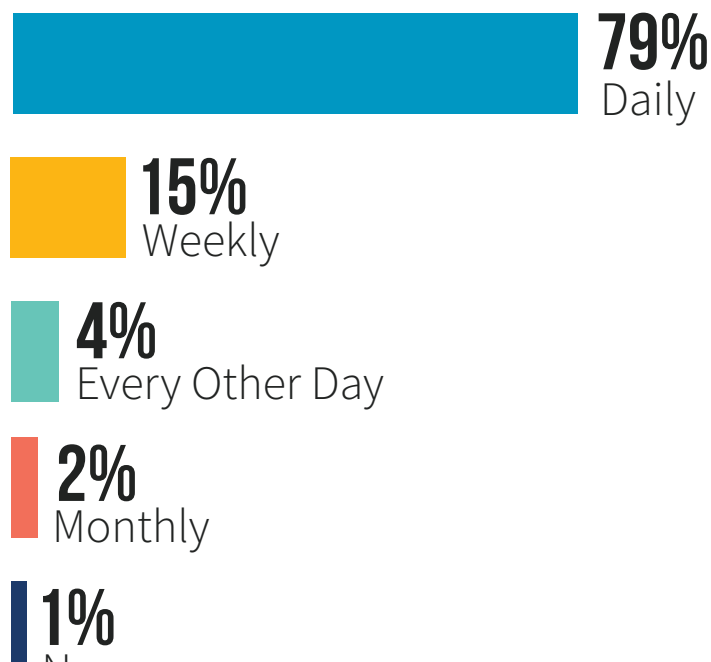

Technology is a critical component of today's 21st-century learning environment. Kajeet surveyed 451 educators across the nation to understand technology use in the classroom and how educators manage these devices.

STUDENT DEVICE USAGE

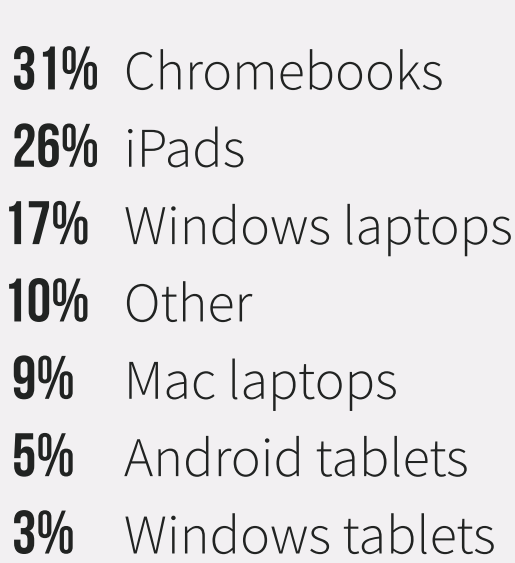

Student devices are frequently used in today's curriculum.

WHICH DEVICES DO SCHOOLS USE?

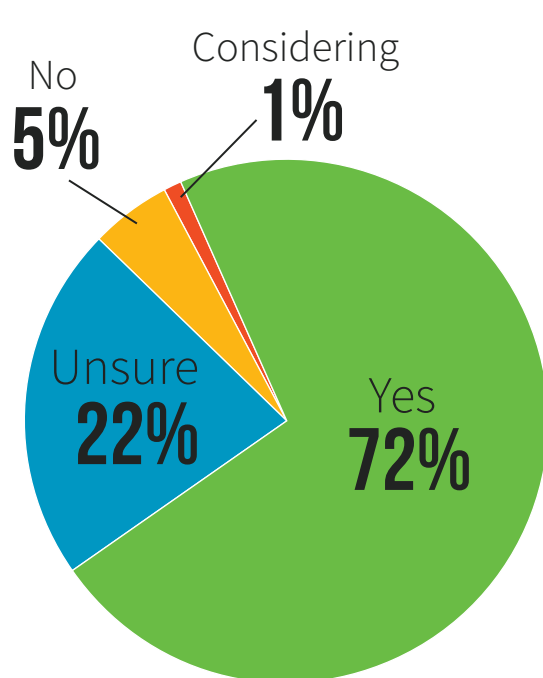

(Multiple Answers Possible)

DEVICE FILTERING

SCHOOLS WITH ON-CAMPUS FILTERING

MOBILE DEVICE MANAGEMENT

With the explosive growth of tech in the classroom, **how do educators manage all of their student devices?**

Mobile Device Management (MDM) is a centralized platform that helps secure and manage multiple student devices.

40%

Have an MDM

19%

Don't have an MDM

37%

Are unsure if their school or district has an MDM
