

OmniComm Systems Announces First Australia Client
Scientia Clinical Research Selects TrialOne®

Fort Lauderdale, FL, October 6, 2016 - OmniComm Systems, Inc. (OmniComm) (OTCQX: OMCM), a global leading provider of clinical data management technology, today announced that Scientia Clinical Research, Australia’s newest and most advanced early phase clinical trial facility at the University of New South Wales in Sydney, Australia has selected OmniComm’s TrialOne clinic automation and eSource application. Scientia Clinical Research is the first purpose built early phase clinical trials center in Sydney, Australia. In addition to first-in-human and first-in-patient studies, the facility will also support later phase trials across a broad range of disciplines. TrialOne will standardize processes, improve business intelligence, ensure compliance, and achieve overall business transformation within its early phase research.

“Scientia Clinical Research believes TrialOne will deliver a competitive advantage in the early phase clinical trial space in Australia,” says Lisa Nelson, CEO at Scientia Clinical Research.

TrialOne is a browser-based bedside data collection technology specifically designed to automate the workflows and processes within early phase research clinics. TrialOne enables the automation of clinic data collection; standardizes recruiting; facilitates the collection of study data and sample tracking; reduces discrepancies inherent in paper-based applications; and ensures compliance.

TrialOne is the market leading eSource system for early phase research clinics addressing the following needs of this organization:

- Manage and optimize patient screening and recruitment
- Provide secure and fully validated eSource
- Implement protocol compliant workflows and data capture from subject bedside
- Deliver automated data capture from medical monitoring equipment and devices
- Streamline staff training and support records
- Provide integration with laboratory information management systems (LIMS) for lab orders and lab results processing

“We are extremely proud that Scientia Clinical Research selected TrialOne early phase clinic automation solution for their state of the art, purpose built clinical trial center. Scientia is OmniComm’s first customer in Australia and New Zealand. This represents a decisive step for OmniComm in its penetration of the early phase and clinical trials market in Australia. Having Scientia as a high profile, top level customer will aid OmniComm in its regional expansion, not only with TrialOne but with all our products,” says Wolf Ondracek, managing director and SVP for the APAC region at OmniComm. “We are
