

AUTOMATE YOUR IDS PRACTICE **FOR \$50**

Juristat's AI knows...

every patent application filed at
the USPTO

every piece of prior art cited in
each case

every foreign equivalent

every continuity relationship

every subject matter
relationship you load into your
private instance

Which means...

no matter the disclosure
trigger

no matter the complexity
of the family

**Juristat IDS can automate
your IDS practice without
your staff lifting a finger.**

JURISTAT CAN HANDLE ALL OF YOUR DISCLOSURE TRIGGERS

We have generated IDSs for office actions (foreign and domestic), new filings, and PCT search results.

HOW IT WORKS

You can initiate Juristat IDS by simply forwarding the digital communication from foreign counsel or the PCT. For domestic OAs, our AI leverages private PAIR sponsorship to automatically detect OAs that cite 102 or 103. Or, for new filings you can upload search reports and/or input the number of another application in the same family.

THE SECRET SAUCE

Juristat's AI stores in memory every app ever filed at the USPTO, its current status, each piece of prior art cited, and the familial relationships between each app. Thus, it can instantly determine which IDSs need to be filed and what prior art needs to be cited.

DELIVERY OF THE FINISHED WORK

You will receive an email containing links to your ready-to-file IDS **within 2 business days** of Juristat receiving notice of the disclosure trigger.

THE BEST OF ARTIFICIAL AND HUMAN INTELLIGENCE

Juristat leverages AI to increase speed and reduce costs, but we also employ a team of human analysts to review the work done by our AI and ensure the highest quality in every document. All human analysts are **U.S.-based full-time employees of Juristat**. Further, they are background checked annually, required to sign extensive confidentiality agreements, and undergo frequent cybersecurity training.

WHAT GETS CITED IN A FOREIGN INBOUND IDS?

Juristat will cite the foreign prior art and either (a) the U.S. equivalent, if present, or (b) provide a machine translation of the abstract from Espace.net and automatically check the box indicating an English translation is attached.

PRICE

\$50 per IDS, plus an optional \$25 if you want us to provide the prior art documents. No matter the number of references or family size, it is still \$50 per IDS. Further, if an OA occurs and our AI determines that no IDS needs to be filed, **then you pay nothing**.
