

## Origin International Inc.

## Announces New Tech Centre

**Richmond Hill, ON, Canada July 30, 2015** – [Origin International Inc.](http://www.originintl.com) is pleased to announce the addition of another Tech Center to the *Powered by Origin* family. [Bobier Metrology Solutions](http://www.bobiermetrologysolutions.com) in Flint, Michigan will be providing CheckMate services especially for Equator™ Authoring but not limited to. They are mostly a Modus shop and have a very high accurate temperature controlled Lab that is used for standard calibrations. Please check their web site to investigate what DeVere and his team provide to Quality Metrology. <http://bobiermetrologysolutions.com>

### About Origin International Inc.

Since Origin's founding in 1992 we have maintained a clear focus on dimensional metrology. Regardless of CAD source data, or dimensional measurement equipment (DME), be they CMM, Articulating Arms, Laser Trackers, Laser Scanners or Photogrammetry equipment, Origin customers know they can rely on CheckMate to maximize their multi-million dollar investments in design and metrology hardware and software.

For more information on our company and products please visit [www.originintl.com](http://www.originintl.com) or call 1-800-269-2509.

### About Bobier Metrology Solutions

A brief history of Bobier Tool from 1946 through the 69 years of providing progressive manufactures with products to increase production, improve quality and lower cost. All products sold and serviced are always Best in Class/Best Precision. Our special built Dimensional Laboratory holds 68 degrees at 40% humidity to reduce Uncertainty values to sub-Micron range. For 12 + years we have been ISO 1025 as accredited by the A2LA organization. *Remember: If the dimension cannot be repeated accurately the results are only an opinion.*
