

Microsoft Customer Immersion Experience (CIE)

Microsoft has made many advancements and upgrades over the last few years. Our Microsoft 365 Immersion Experience offers an interactive environment designed to be engaging, informative and fun. Join our complimentary Lunch & Learn about all things Microsoft, including:

All products are setup and configured with representative (fictional) users and data, allowing real life scenarios to be instantly simulated. The CIE is a great way to get hands on with the latest productivity tools including Teams, Outlook, OneDrive, SharePoint, and more in an interactive, experiential, and fun environment.

Microsoft Customer Immersion Experience

**Schedule your complimentary CIE with our
Microsoft Certified Facilitator today!**

<http://bit.ly/CIErequest>

The Microsoft Customer Immersion Experience (CIE) is a hands-on introduction to Microsoft's suite of productivity tools. This true-to-life user experience takes you through everyday business situations, such as working remotely, analyzing sales data and collaborating with coworkers, and lets you see how Microsoft products make it easy, convenient, and secure.

These workshops are led by a Microsoft Certified Facilitator and are customized to let attendees explore at their own pace and focus on first-hand experience with the tools that address your business needs for your organization.

Interactive learning:

- Cutting-Edge Cross Departmental Communication Tactics with Microsoft Office365 Teams
- Co-Authoring Documents and File Version Management in Office365
- DIY Internal Process Automation through SharePoint & Microsoft's FREE "Flow" Product
- New & Hidden Outlook Tips and Tricks your Team Never Knew Existed

****LUNCH provided****
