Acuity Brands Introduces the WINLINE 500 Series from Winona®, a Family of Linear Accent Luminaires Offering Superior Optical Performance

ATLANTA – May 8, 2019 -- [Acuity Brands, Inc.](http://www.AcuityBrands.com) (NYSE: AYI) introduced today the WINLINE 500 Series of linear accent luminaires from Winona®, which offer superior optical performance and efficacy along with design flexibility for indoor spaces and outdoor applications requiring IP66-rated enclosures. Whether used for flood lighting, grazing or wall washing, the WINLINE 500 Series provides exceptional beam control, placing illumination precisely where it is intended.

Within a single platform, the WINLINE 500 Series offers multiple color temperature choices including static white and static color, dynamic color, tunable white or warm dimming capabilities. The Series uses an eldoLED® driver that delivers smooth and flicker-free deep dimming to <1% and dim-to-dark performance. Also, the Series offers luminaires with lumen outputs from 300 up to 1000 lumens per linear foot, allowing the matching of the right amount of light to an application.

“We developed the WINLINE 500 Series as a complete linear solution to help specifiers address multiple accent lighting applications,” said Cleveland Blankenship, Business Unit Leader, Acuity Brands Lighting. “The Series’ superior optical performance provides precise lighting across multiple distribution options, including narrow and wide spot, narrow and wide flood, cove and asymmetric beam configurations.”

For more information, the WINLINE 500 Series will be on display at the Acuity Brands booth #1201 during LIGHTFAIR® International 2019, May 21-23, at the Pennsylvania Convention Center in Philadelphia, or visit [WINLINE 500 Series](#).
