

CITEL Surge Protection releases the MLPXU-277 for outdoor street lighting applications

MIRAMAR, Florida - May 16, 2019 - CITEL Surge Protection introduces a new LED Surge Protector for outdoor street lighting applications that meets the ANSI C136.2 extreme location (20kV/10kA) and UL1449.

The MLPXU-277 is offered in series or parallel configurations with an outdoor IP67 rating.

LED luminaires incorporate drivers that are very sensitive to transients. The MLPXU Series clamps at 30% more than comparable surge protectors on the market.

Please visit CITEL Surge Protection at Booth 5927 at LIGHTFAIR® International to discuss your lighting application and surge protection requirements.
