## NORA LIGHTING<sup>®</sup> DEBUTS DIVERSE RANGE OF LED LUMINAIRES, BOOTH # 2301

COMMERCE, CA          Nora Lighting, a leading manufacturer of LED luminaires, will introduce a versatile line-up of energy saving LED products at LIGHTFAIR<sup>®</sup> International.

**IOLITE MLS**    The Nora Iolite Multiple Light Series has one to three independently-adjustable fixtures in a recessed housing. Each luminaire has a variety of beam distributions and 1000lm (13W). Three reflector options and 2700K to 5000K at 90+ CRI.

**MAY LED TRACK**    Compact MAY track head resembles line voltage fixtures, yet without large driver enclosures. With over 700 lm (10W), MAY is available in 2700K to 4000K at 90+ CRI. White or black finish; 3 1/2" x 2 1/4" In size. One or two circuit track capable.

**M2 MINI LED**    M2 offers a 2" downlight or adjustable gimbal. Designed for easy installation, the M2 does not require a housing unit; it is outfitted with a prewired junction box that includes a quick connect. IC- and air-tight rated for remodel and new construction.

**CAMO WITH TUNABLE WHITE**    CAMO LED is a thin 1/2" surface-mounted fixture with integral, selectable CCT switch that allows the user to adjust color temperatures from 3000K to 5000K at 90+ CRI. Three diameters: 6", 8" and 11" with a white finish. Integral magnet allows decorative rings to be attached.

**L-LINE LINEAR** L-Line commercial LED linear fixtures are offered in 2', 4' and 8' lengths with two mounting options: surface and pendant. Sleek aluminum housing presents a modern appearance, and the diffused lens creates symmetrical light distribution. 1050lm per foot with 80+ CRI; dimmable to 10 percent.

**T-LINE TUNABLE WHITE** Nora's T-Line LED Linear track head offers bright, even wall illumination. Discrete CCT switch fine tunes the LED color from 3000K to 4000K at 90+ CRI. In 2' and 4' lengths with a modern linear design, T-Line runs parallel to the track for a uniform appearance.

**COMFORT DIM TAPE** Nora's Comfort Dim LED Tape Light is a versatile 16' roll that allows the user to gradually dim the color temperature from 3000K to 1800K, creating a warm ambiance inside or outdoors. With 170lm per foot, Comfort Dim Tape is field cuttable every 2".

**DIPPER WALL WASHING / INDIRECT LIGHTING** Dipper LED is available as a track head, wall or ceiling mount and is a discrete solution for wall washing or indirect lighting. Die-cast aluminum body has an indirect linear LED strip that reflects off the polished reflector. In 8" and 12" lengths; black, white or silver.

**MAC LED TRACK** Nora MAC LED Track Series offers two luminaires: MAC, 700lm (10W) and MAC XL, 1100lm (18W). Fixture has a sleek, driverless appearance and field changeable beam spreads. Pre-installed narrow flood optic is included, along with an additional spot optic. 2700K to 4000K at 90+ CRI.
