

T-BAR FLEX™ by JLC • tech

Re-invent your ceiling with shapes and light using the T-BAR FLEX™ and DESIGNFlex™ Ceiling System by **Armstrong**
CEILING SOLUTIONS

Introducing the T-BAR FLEX™, a truly integrated lighting solution for the DESIGNFlex™ Ceiling System. Leveraging JLC-Tech's patented technology of replacing the cross tees in a suspended ceiling, the T-BAR FLEX utilizes the XM clip, designed by Armstrong® Ceilings exclusively for the DESIGNFlex™ Ceiling System, to seamlessly install without the use of any tools and no cutting of tiles. With the T-BAR FLEX and the DESIGNFlex™ Ceiling System, you are no longer limited to straight lines of light. You can now create lighting layouts like never before: From zig-zag linear patterns, to geometric shapes, the possibilities are endless.

For more information about the T-BAR FLEX™ visit www.tbarflex.com.

JLC-Tech was founded in 2010 with one singular vision: to create unique and useful LED lighting fixtures. Our flagship product, the T-BAR LED™, is the manifestation of our mission and dedication. JLC-Tech designs and manufactures the only patented lighting products that replace the grid in a suspended ceiling system.

Product Feature
