BEAM Laser.

Testing the boundaries of what is possible.

BEAM Laser Floor

Turn any space into an exhilarating virtual playground.

BEAM Laser Ball Wall

An interactive play solution where players throw balls at specific targets on a wall.

BEAM Laser Wall

Project immersive interactive experiences on any wall.

BEAM Laser Table

Convert tables of all shapes and sizes into astonishing experiences.

A group of children are playing on a large, colorful, interactive floor projection in a museum or play center. The floor is covered with a vibrant, abstract pattern of green, yellow, and blue, resembling a stylized landscape or a game board. The children are standing on the floor, some with their feet on the projection, and they appear to be engaged in a game or activity. In the background, other children are riding stationary bikes, and there are interactive screens and displays. The overall atmosphere is bright and playful, with warm lighting and a focus on active play.

BEAM Laser Floor

The BEAM Floor promotes active play as it gets kids up and moving. It will have kids exercising for hours as they run, jump & play.

BEAM Laser Table

BEAM Table is a digital experience for the whole family to enjoy together. Choose from 8 different games right from the interface using just your hands. Add a game table and everyone will be instantly talking & laughing.

BEAM Laser Wall

BEAM Wall takes all of the excitement and interactive enjoyment from the floor to the wall. It will have customers painting picture and popping balloons. BEAM Wall can easily transform into meeting spaces and be utilized for crew training.

BEAM Laser Ball Wall

Looking to keep kids active inside your restaurant? BEAM Ball is an interactive play solution where players throw balls at specific targets on a wall, resulting in a fun and innovative gaming experience for kids of all ages.

New Dazzling Projection Interactive Technology With Minimal Downtime.

Engineered and designed specially
for businesses who want the best quality
and highest reliability.

Why Eyeclick?

+ Your partner for digital play

Eyeclick is a world leader in digital play solutions since 2005. Since 2009, Eyeclick is an approved global vendor for Burger King with thousands of interactive displays installed in all major markets. Our goal is to provide Burger King with the highest quality of products and heights of service through our global tech partners network operating locally from every major market.

+ Active play

BEAM products encourage active play for kids in all ages using hassle-free interactive projection device that is easy to install and display ever-changing digital games (including Burger King branded games) on any surface, turning it into instant attraction for kids and families.

+ BEAM Laser advantage

Now with a powerful laser projector, BEAM sets the mark with a significantly brighter and higher quality of projection that requires minimal to zero maintenance time and no need to lamp replacement for up to 20,000 hours (4.5 years under normal operation of 12 hours per day).
