

Tylö sauna door Alu Line

A stylish sauna door from Tylö

Every sauna door carrying Tylö's name is of the highest quality and is specially manufactured to withstand the considerable temperature differences between the outside and the inside of the sauna without warping or becoming deformed.

The combination of clean, uncluttered lines and materials such as glass, wood and aluminium creates a harmonious appearance that is modern, yet timeless too. The stylish glass door is protected by sleek, stainless steel trim around the edges and has elegant handles, sealing strips and a magnetic catch from the outside. From the inside is the door strips and handle made of alder.

It can, of course, be hung to open either left or right. The door comes in bronze-colored glass with the dimensions 1870x778 mm. The sauna door has the same design as Tylö steam door 60G.
