Glass front C - 1196 mm
Aspen (Item no. 9511 3888)

Glazed sections for DIY projects

Tylö is expanding its range to offer an even greater choice in sauna design and construction. Based on the Evolve module series, our extended range makes it possible to create a stylish and spacious sauna by fitting a large number of new glass fronts and corners. Saunas can be constructed in a variety of sizes and configurations using the prefabricated wall modules and glazed sections, which are made of durable safety glass. The end result is always the distinctive contemporary design for which Tylö is known.

Clear glass, aspen frame and aluminium floor frame.

Customise your Tylö sauna with our specially-designed accessories, range of lighting options and no-threshold DGL Plus door (item no. 9511 3150) for a complete experience and exclusiveness that has made our sauna rooms a benchmark for sauna design worldwide.

TYLÖ[®]
for the senses
