

Sense Pure

- Quick heat up of the sauna due to our unique Airflow system with two air chambers.
- Energy saving feature “divided output” to ensure an energy efficient sauna experience.
- Fiber coated outer shell in order to minimize the risk of burns.
- Add fragrant essences in the removable compartment.
- Pure control panel can be placed outside or inside of the sauna.
- Output: 6,6kW, 8kW and 10,5 kW
