

During these unprecedented days of social distancing, our need for social connection and a sense of community within organizations is great. As companies look for meaningful ways to bring their workforce together and respond to the important needs of our community, we facilitate virtual volunteering and drives.

We understand the collective impact that a company can have when their employees join together to give back to the community in which they work - and through these holistic projects we hope to not only enhance the sense of collaboration within your team while operating remotely but also tackle the urgent needs facing the Greater Boston ecosystem.
