QUICK FACTS

- * Multi-Story Construction works best in Urban and Suburban markets and on sites that are “land-locked” with existing and operating businesses around them.
- * Multi-Story Sites are usually developed on parcels that range from 1-2 acres.
- * Turn-Key Construction for Multi-Story Sites will usually run between \$70-\$80 psf
- * Multi-Story Self Storage Buildings are usually climate controlled.
- * Multi-Story design will usually require Architectural Drawings in addition to Structural Engineering
