## Who We Are:

Brain Balance is a nationwide system of specialized achievement centers that offer the ground-breaking Brain Balance Program. Our program combines physical and sensory exercises with cognitive skill training and healthy nutrition to address the underlying issues in most of the behavioral, development and learning disorders that affect our children today.

## How we started:

In the early 1990s noted bestselling author of *Disconnected Kids*, clinician, researcher and childhood neurobehavioral expert Dr. Robert Melillo began seeing a marked increase in children with learning and behavioral issues visiting his practice. Parents were concerned and desperate to help their children. This was the beginning of a long and passionate journey for Dr. Melillo as he developed the Brain Balance Program.

## Thank you for your interest in a Brain Balance Achievement Centers Franchise.

For the investor, Brain Balance Achievement Centers offers more than just a great business opportunity; it offers a solution for thousands of children and families struggling with academic, behavioral and learning issues. Children who benefit from the Brain Balance Program do not always have a diagnosis, but often exhibit characteristics of learning, behavioral and processing disorders. Brain Balance also serves parents of children who exhibit signs of lack of focus, impulsiveness, tantrums, difficulty making friends, poor relational and social skills. We invite you to explore this opportunity further and encourage you to contact us to get started in building a business that makes a difference!
