

GSX 365 Usage Reports

Detailed reporting and analysis made easy

Leverage GSX Solution's proven expertise to keep your business communications flowing.

GSX 365 Usage Reports: the solution you need to build reports and maximize the value of your SharePoint online deployments.

It gives you insight and analytics into how people in your organization are using SharePoint Online and OneDrive services.

You identify security risks and cost savings while maintaining visibility of changes in your environment.

Currently managing over 2 million Office 365 user accounts we collect information about your Office 365 environment each day and use it to create clear and customizable reports for your organization.

The GSX 365 Usage Reports solution gives IT administrators a tighter grip on resource allocation, thereby increasing efficiency. It is designed to provide customers with detailed insight into the SharePoint Online environment and allows them to:

- ▶ Monitor usage to lower the SharePoint TCO and maximize the Return on Investment.
- ▶ Audit security to ensure that the right people have access to the right sites, document libraries and lists.
- ▶ Measure compliance with internal SharePoint governance policies.

Licensing & Usage

Save money by identifying unused licences and analyze how your Office 365 services are being used.

Customize & Schedule

Access and produce customized reports and graphs and automatically deliver them by email in PDF or CSV format.

Security & Compliance

Easily audit compliance with organizational policies and proactively identify security risks.
