

Vendor Portal

Empower your Vendors with Self-Service Access to SAP Business One Data

What if your vendors could view the lifecycle of any issued purchase order without involving your staff? Or track their inventory items with ease by the click of a button? Vendor Portal provides secure and flexible self-service access to your vendors that will reduce time-consuming inquiries and improve vendor-distributor communication and relations.

A powerful and integrated solution for online collaboration, Vendor Portal streamlines the end-to-end procurement process and empowers your vendors with real-time workflow and tracking data through SAP Business One - making it easy for organizations to do business with you. Vendors can get instant answers to common inquiries regarding their purchase orders, overdue shipments, open invoices, payment history, and inventory supply through a variety of custom vendor query reports. Relieve your employees from handling regular vendor inquiries to focus on more strategic initiatives.

Inquire on the status of your inventory supply across different locations or filter on inventory specific details at any time.

Vendor Portal Offers:

- Reduced administrative costs through self-service with fewer inbound calls from vendors querying invoice or payment status.
- Reduce inventory errors and improve supply chain visibility.
- Full support for display of user defined fields (UDFs) within SAP Business One custom fit for your business processes. Easily export reports into XLS.
- Real-time, on demand data access to custom queries from SAP Business One that best meet your Vendor's specific informational needs.
- Ability to view and modify report layouts to see relevant data in a way that makes the most sense for you.
- Enjoy complete report customization using drag and drop columns, dynamic pivot tables, filters, and document drill-downs.
- Customize and save report formats to only see meaningful data relevant to the Vendor.
- User level security with Vendors only able to view their own data.
- Compatible with SAP Business One 8.8, 9.0 and 9.1
