

Clinical environments. Transformed.

Change the way your patients experience health-care

Now available from Cassling:

Sentient Suites create personalized environments and healing patient spaces

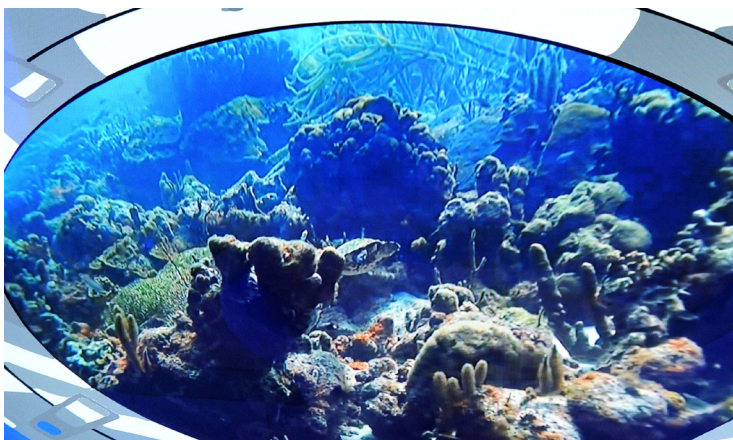

Even with the most advanced technology and skilled technicians, the delivery of health-care can be a frightening experience for patients of all ages. Tight spaces. Buzzing machinery. Cold and sterile rooms.

Cassling helps you put patients at ease and in control.

With the addition of Sentient, now available from Cassling, patients can experience health care in a whole new way. Patients can enjoy a personalized environment by choosing a favorite 4K Nature Theme, mood lighting, personal photos, videos and music with a tap of the finger. Create the ideal setting for patient care with a variety of products designed to enhance the patient experience and perfectly complement your equipment investment.

Sentient Suites and products allow you and your patients to effortlessly create and control your ideal health-care environments, anywhere within a health-care facility. Your design, your chosen patient experience content, your effortless controls. We can help you achieve improvements in patient experience, work flow and outcomes.

It's all a part of the Cassling Cares Commitment

For more than 30 years, Cassling has remained committed to providing equipment, cutting-edge technology and the support you need to provide the best care for your patients.

Sentient Benefits:

- **Personal control.** Patients easily personalize their audio-visual environment – anywhere, anytime.
- **Pre-engineered solutions.** Creatively integrate Sentient products into any design.
- **Original 4K nature video and Light Motion.** Bring the soothing power of nature closer to patients.
- **Experiences for every patient, every mood.** With a tap, patients are immersed in their chosen experience – a coastal Redwood Forest, undersea grotto or personal photos, videos and music.
- **No restrictions.** Create your ideal environment anywhere in a health-care facility. MRI, CT, nuclear medicine, infusion rooms, even waiting areas can be transformed into customized, calm and healing spaces.

Give patients control over any health-care experience

Deliver unrivaled patient experiences through customized patient spaces
