

Realizing Possibilities Through Impactful Talent Solutions

Career Launch Virtual Career Transition Program

Career Launch provides access to CMP outplacement support from anywhere, at any time. This virtual program includes a robust online portal and one-on-one telephone support, including an 800 number to use for immediate help at unscheduled times. Along with providing high impact career transition solutions for clients, we form a partnership with each individual to support them throughout their transition process.

Leverage Contemporary Search Tools

The Career Launch program leverages robust online tools and targeted coaching to support every aspect of career transition, including:

- Resume Development
- Networking strategy
- Targeting companies
- Job search tools
- Internet support
- Interview practice/preparation
- Time management/goal setting
- Online career portal OI Solutions
- Wide selection of webinars on all aspects of a successful transition

Unique Online Opportunities

Supporting Career Launch is our proprietary OI Solutions portal. The OI Solutions Portal offers research on targeted companies and trainings. In addition, candidates can access many robust features such as one-stop job search, resume samples, cover letters, thank you notes, and biographical summaries.

Career Launch is an excellent alternative to our traditional person-to-person service model for employees who are distributed across geographies, or prefer a virtual career transition solution.
