

# Realizing Possibilities Through Impactful Talent Solutions

## Your Career From the Inside-Out

### Realize Career Clarity and Sustained Engagement

Your Career from the Inside-Out gets to the core of career engagement by helping each employee surface and meet their career needs within their company.

#### Workshop: Your Career From the Inside Out

This is a one-day interactive session based upon the seminal book, *Make it Work: Navigate Your Career Without Leaving Your Organization*.

This workshop enables participants to take control of their career and realize a sustained level of engagement, or what we call "Engagement." Engagement is the sustained level of motivation that results from people being fully committed to the content of their work and the career path they have chosen for themselves. This workshop has changed careers and even lives. Key content covered include:

- **Career Insight** – using the CSI50 assessment, participants derive a clearer picture of their current level of career engagement, and what they need in their career.
- **Career Beliefs** – uncovering pervasive career myths and adopting necessary career truths.
- **Career Foundation** – surface core needs and make enlightened career choices on internal roles, and enhancement of accountability and engagement in current role.
- **Career Navigation** – the six practices of career success to build a great career.
- **Career Action** – individual career plans and commitments.

#### Post Workshop Application

To ensure application of the workshop principles and practices, each participant will have access to an experienced career coach one week after completing the workshop. The Career Coach provides timely guidance to help support the application of the Workshop insights and commitments, and ensure the embedment of the principles and practices in daily career navigation.

## Get to the Core of Engagement, it's Your Career From the Inside-Out
