

EDUCATION + TECHNOLOGY + ENVIRONMENT

50 years

Celebrate the 50th Anniversary of
World Earth Day on April 22nd with
Advanced UK and Xerox™

24 BILLION

Approximate number of
pages printed and copied by
UK schools in 2019

3,021 PAGES

What each pupil consumes in
paper printed and copied
2019

£1.5 BILLION

Forecast annual spend across
UK schools on printing and
copying in 2020

120 TREES

The number of mature trees
each UK school consumes
each and every year

Statistics sourced from Microsoft Corporation
Department for Education, and the ONS

There's a better way!

Advanced UK believes in education, and as part of our own Corporate Social Responsibility programme, we are inviting schools to attend a special event at the brand new Xerox™ Innovation Centre in Uxbridge to discover a sustainable way to replace those trees, to reduce the amount printed, and to make a difference to the environment.

We encourage you to bring students so both your school and your students can see how technology can benefit the environment.

Interactive & educational

We've designed an interactive session where everyone will learn how each school can guarantee to replace every tree consumed!

We will be showing some novel uses of your office printers too, such as converting document from text to audio, and translating them on-the-fly.

For your IT and leadership teams, we'll explain how to get rid of your expensive (and polluting) print servers!

Register today!

For details, and to register your school, please visit

<https://tinyurl.com/wl42ndf>

The event is on 22 April 2020,
10:00am – 1:00pm

Xerox Innovation Centre,
Uxbridge, UB8 1DH

*For reasons of safeguarding, we require all students
to be accompanied by a staff member of their school.*
