Cloud: Azure, AWS

ActivePDF is seeking a **Mid-level C# .NET Software Developer** who is a seasoned expert in their technology domain. Their assigned tasks and projects are highly complex with little or no supervision required to complete on time and within budget. The developer understands the business and can translate business requirements into technical specs, then engineer effective solutions to solve business problems. They have a can-do attitude and are the go to person to solve complex issues using knowledge, discretion and independent judgement. They mentor and coach junior software developers.

ESSENTIAL JOB FUNCTIONS

- Designing, coding and debugging C# .NET applications
- Troubleshooting technical issues occurring within assigned product(s)
- Documenting coding and modifications; reviewing API documentation for accuracy
- Performing code analysis, code reviews, and software reliability analysis
- Creating Unit Test Suites
- Performing other duties as assigned

EDUCATIONAL AND SKILLS REQUIREMENTS

- Bachelor's degree in Computer Science or equivalent experience is required, Masters' Degree preferred
- Minimum 5+ years' experience developing in Microsoft C#
- 5+ years' experience with .NET Framework and Entity Framework
- 3+ years' experience with ASP.NET MVC, Web API, ADO.NET, REST, and JSON
- 3+ years' experience developing in Relational and NoSQL Databases (SQL Server, MongoDB, etc.)
- 3+ years' experience working in a source-controlled environment, such as Git or TFS
- Strong understanding of software design patterns
- Full development life cycle experience from requirements definition through coding and release
- Proven experience developing, testing, documenting and releasing mission-critical software
- API Design and implementation

DESIRABLE ATTRIBUTES

- Hands-on C/C++ experience
- Hands-on experience with JavaScript, HTML, CSS, and JavaScript Libraries and Frameworks

- Technical knowledge of the PDF specification and/or direct coding experience developing PDF based solutions
- Experience with ASP.NET webforms, MVC, and Razor
- Understanding of and experience with Agile development principles
- Docker experience

BENEFITS

ActivePDF offers a very generous benefits package that includes excellent medical insurance, dental, vision, paid vacation and sick days, paid holidays, 401(k), several bonus opportunities, and complimentary snacks. Work with a good, tight team that's dedicated to producing high quality PDF tools for developers. Located in beautiful, sunny, south Orange County.

Location: Laguna Niguel, CA
