

BASEBALL. WHAT'S IN YOUR TURF MATTERS.®

NON MARKING | MINIMAL FLY-OUT | REDUCED MAINTENANCE | COOLER SURFACES

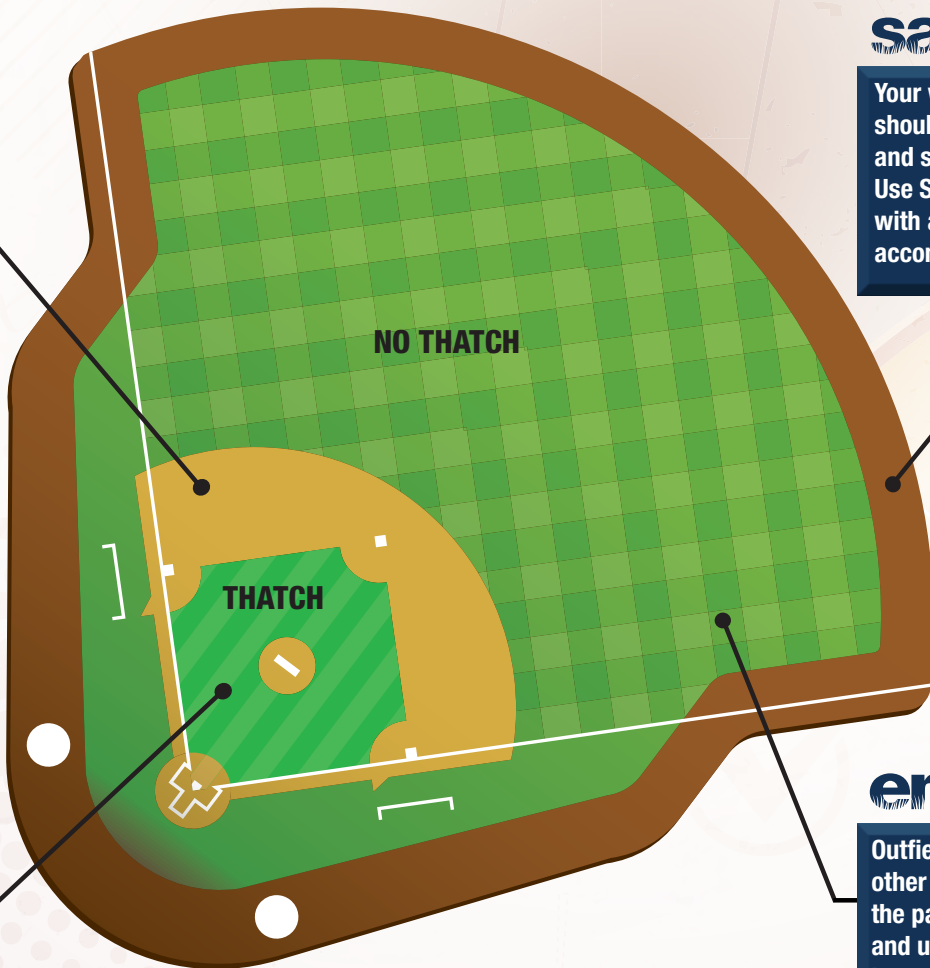

"Biggest positive is the way the fields play. More like a grass field but with the best aspects of turf." - Alan Donhoff, Saint Xavier High School, Louisville, KY

envirofill.

Round infill makes it easy to slide without tearing up fibers.

envirofill.

Infielders want a predictable surface to field balls. Use Envirofill® here with a shorter slit or dual turf fiber for a consistent surface with minimal fly-out.

safeshell.

Your warning track should look, feel, and sound different. Use Safeshell® here with a slit turf fiber to accomplish the task.

envirofill.

Outfield not used for other sports? Forego the pad to save money and use Envirofill with a longer dual turf fiber.
