

BSM FLEET CENTER INTEGRATION

Updated April 12, 2019 | www.Carrier.MacroPointConnect.com/Technical-Documentation

HOW TO CONNECT

1. To move forward with a BSM Fleet Center integration, you will need to request an API key from BSM. Please email them at support@webtechwireless.com with us in copy to request an API key for data feed.
2. You will need to send API key to your dedicated Descartes MacroPoint Carrier Activation Consultant once that information has been obtained or created. If you have not been assigned a dedicated MacroPoint rep yet, please send this information to MPActivations@descartes.com.

NOTES

When requesting an API Key or user credentials to be provided for use with Descartes MacroPoint, please ensure that the credentials have administrative permissions/API access.
