# GEOTAB INTEGRATION

Updated February 5th, 2018 | www.Carrier.MacroPointConnect.com/Technical-Documentation

## HOW TO CONNECT

1. A user with administrator access to your GeoTab database has to create a GeoTab service account with a security clearance of "view only".
2. Please make the username macropoint-service@"databasename" where "databasename" is derived from your web portal URL in the example below.
   a. Your database name can be found in the address to your web portal. Please provide this URL to your Descartes MacroPoint Activations Consultant so that we can obtain the server/database name. **Example:** https://my112.geotab.com/abc_company/
   b. Please provide the username, password and copied URL to your Descartes MacroPoint Activations Consultant when you are ready. If you have not yet been assigned a Descartes MacroPoint Activations Consultant, please send this information to the Descartes MacroPoint Activations Team at MPActivations@descartes.com.

## NOTES

When requesting an API Key or user credentials to be provided for use with Descartes MacroPoint, please ensure that the credentials have administrative permissions/API access.
