DESC⧫RTES™ MacroPoint

SAMSARA INTEGRATION

Updated February 5th, 2018 | www.Carrier.MacroPointConnect.com/Technical-Documentation

HOW TO CONNECT

1. In order for MacroPoint to establish connection, we need an API token and a group ID:
   a. **Creating API Tokens**: API Tokens for secure access to the API can be created from the Organization settings page. Click your username in the top right of the Dashboard, then select Organization from the drop-down. Tokens can be viewed and created from the 'API Tokens' tab. Click '+ Add an API Token' to create a new token.
   b. **Finding Your Group and Organization IDs**: These can be found on the API Tokens tab under Organization settings.
2. Once you have this API Token and a Group ID, please send them to your Descartes MacroPoint Activations Consultant. If one has not yet been assigned to you, please email this information to the Descartes MacroPoint Activations Team at MPActivations@descartes.com.

NOTES

When requesting an API Key or user credentials to be provided for use with Descartes MacroPoint, please ensure that the credentials have administrative permissions/API access.
