SYNCUP FLEET INTEGRATION

Updated July 26th, 2018 | www.Carrier.MacroPointConnect.com/Technical-Documentation

---

HOW TO CONNECT

1. A user with administrator access to your SyncUp Fleet database has to create a SyncUp Fleet service account with a security clearance of "view only".

2. Please make the username macropoint-service@"databasename" where "databasename" is derived from your web portal URL in the example below.

3. Your database name can be found in the address to your web portal. Please provide this URL so that w can obtain the server/database name.
   Example: *https://sf26.mysyncupfleet.com/abc_company/* In this example "abc_company" is the database name

4. Please provide the **username, password and copied URL** address to your Descartes MacroPoint Activations Consultant. If one has not yet been assigned to you, please email this information to the Descartes MacroPoint Activations Team at MPActivations@descartes.com.

NOTES

When requesting an API Key or user credentials to be provided for use with Descartes MacroPoint, please ensure that the credentials have administrative permissions/API access.
