

TRANSFLO INTEGRATION

TRANSFLO®

Updated February 5th, 2018 | www.Carrier.MacroPointConnect.com/Technical-Documentation

HOW TO CONNECT

1. A user with administrator access to your TransFlo database must create a TransFlo service account with a security clearance of **"view only"**.
2. Please make the username **macropoint-service@"databasename"** where **"databasename"** is derived from your web portal URL in the example below.
3. Your database name can be found in the address to your web portal. Please provide this URL so that we can obtain the server/database name.
Example: https://my258.transfloeld.com/abc_company/ In this example **"abc_company"** is the database name.
4. Once you have the username, password and copied URL address, please send them to your Descartes MacroPoint Activations Consultant. If one has not yet been assigned to you, please email this information to the Descartes MacroPoint Activations Team at MPActivations@descartes.com.

NOTES

When requesting an API Key or user credentials to be provided for use with Descartes MacroPoint, please ensure that the credentials have administrative permissions/API access.
