

ABOUT ACADIANA MANAGEMENT GROUP

AMG was founded in 1999 and has grown into a leading specialty hospital organization, becoming a Top 5 post acute hospital system nationally. AMG’s principal officers have over 50 years of experience both developing and managing the operations of multiple inpatient and outpatient rehabilitation hospitals, long term acute care hospitals, general acute care hospitals, ambulatory surgical facilities, walk-in clinics, diagnostic testing facilities, and hospices.

THE NETCHEX IMPACT

Acadiana has been a Netchex client for over 12 years, seeing progress and innovation year after year. With over 10 locations utilizing Netchex that employ over 1,000 employees, Acadiana trusts Netchex to be their single-source solution, providing them services for everything from [Time and Attendance](#), to [COBRA administration](#).

More importantly, Acadiana uses NetGuide and NetRecruiter to make their jobs easier and more efficient. In the healthcare industry, specifically senior care and nursing homes, turnover can be extremely high. High turnover means an almost constant process of recruiting, hiring and onboarding is necessary to stay properly staffed. With [NetRecruiter](#), they utilize our powerful applicant tracking system that streamlines their recruiting, interviewing and candidate scoring process, ensuring they’re hiring the most qualified and appropriate candidates possible. Then, once they’re hired, they make the seamless transition to the onboarding process with [NetGuide](#). From hire to retire, paperwork to workflows, Acadiana can manage all of their employee information in one incredibly user-friendly platform.

“Netchex is a customer focused company, with customer service that is second to none, and their product is truly user friendly.”

Vonda Broussard | Corporate Director of Human Resources

AN INCOMPARABLE SERVICE EXPERIENCE

Vonda and her co-workers at Acadiana Management don’t hesitate when recommending Netchex to friends and colleagues in the senior care industry because of the first-rate service experience they’ve had during their twelve years with Netchex. To Acadiana, Netchex is more than a software provider, we’re a business partner. They’ve even gone so far as to recommend Netchex for Nursing Home Association memberships, stating that **“The training, customer service and continued process improvements they have provided for us, to their product throughout the years has been second to none in the industry. They are a company of integrity.”** At Netchex, we pride ourselves on our approach to service and the level of knowledge of our support team. No 1-800 numbers or outsourced service. Our team approach to service ensures each client is assigned to a team, not an individual, so that their needs are understood quicker and problems solved more efficiently.
