LIFE BEFORE NETCHEX

Lamarque Ford was in need of a less manual and more robust reporting system than what they were previously getting from Payroll Plus. In 2017, they made the decision to switch to Netchex for our single-source platform that integrates their payroll, onboarding, time and attendance, and benefits. In addition to our integration with Hireology, their recruitment and applicant tracking platform, making the switch to Netchex was a no brainer for the team at Lamarque.

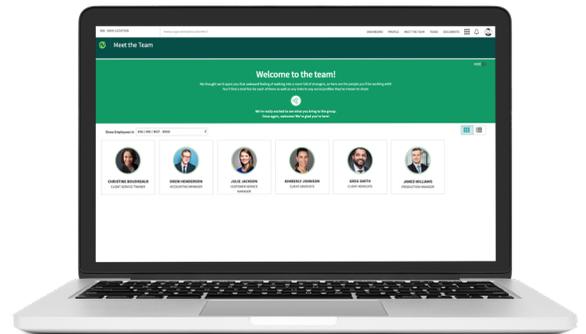

Netchex Services:

- ✓ NetGuide
- ✓ NetBenefits
- ✓ Time & Attendance
- ✓ Hireology Integration
- ✓ NetInsight
- ✓ NetCOBRA
- ✓ E-Verify
- ✓ ACA Central
- ✓ Paycards

WHY WE WERE (AND ARE) THE BEST SOLUTION

Recruitment is the start of the employee life-cycle, and the Netchex-Hireology partnership and integration ensures a seamless transition for new hires from their application process in Hireology right into [NetGuide](#). From here, Netchex provides a smooth, paperless onboarding process with new hire and tax forms, eSign documentation, video trainings and an automatic payroll integration. With Netchex, Lamarque knows they'll be compliant with all their state and federal forms, as well as non-disclosure and privacy agreements if needed. After onboarding is complete, their employee is ready to clock in and get to work. With Netchex [time and attendance](#), Lamarque has options when it comes to time collection, as well as automatic alerts for absences, overtime and more with incredible reporting insights.

One of the biggest advantages of using a single-source integrated system like Netchex is that the support and service teams are educated and knowledgeable on all products, from payroll to onboarding to benefits. With Netchex, there are no 1-800 numbers or bouncing around from one department rep to another. Your company is assigned a specific service team full of FPC Certified service reps that are equipped to handle your company's needs and solve your issues in an efficient, timely and professional manner.
