

ABOUT LEAKE AND ANDERSSON

Leake & Andersson is an established litigation and general business practice law firm based in New Orleans, Louisiana. They represent a broad variety of corporate and insurance clients in bankruptcy, casualty, commercial, construction, employment, environmental, ERISA, employment, fidelity, fiduciary, healthcare, insurance, intellectual property, products liability, professional liability, securities, transportation and workers' compensation litigation.

LIFE BEFORE NETCHEX

Leake & Andersson's previous experience with ADP was lackluster and sent them looking for a better system and customer service experience. When using ADP, they would frequently encounter bugs in their system and have to contact their service department. With ADP's call center model for service, they would repeatedly get passed around from one service department to another, and sometimes even pay a fee before the issue is resolved. All of these inefficiencies with ADP's system led them to search for a replacement human capital management system that got the job done with an exceptional service experience.

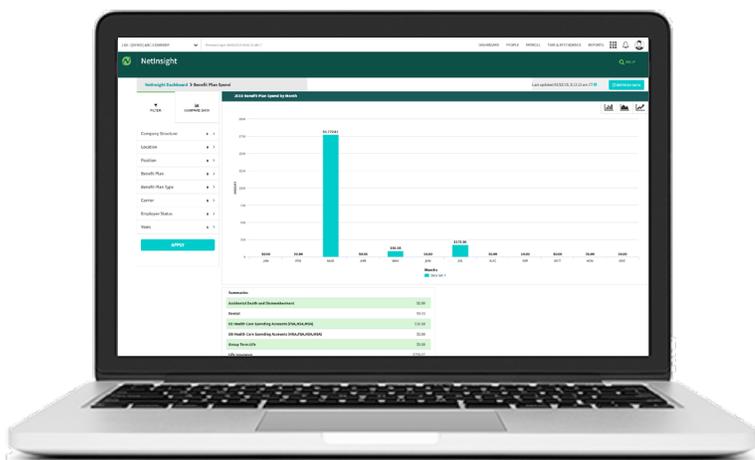

Netchex Services:

✔ Payroll & Tax

✔ NetInsight

✔ Employee Self-Service

✔ Manager Self-Service

WHY WE ARE THE BEST SOLUTION

As a Netchex client for over 10 years, our system provides Leake & Andersson with the tools and capabilities it needs to successfully run payroll for their small business. Today's workforce can be remote, seasonal, part-time or salaried, and Netchex is equipped to handle these variations with unlimited direct deposit, live e-checks, or paycards. Our automated taxes and reporting capabilities are indispensable when it comes to compliance, taking tasks off your plate and worries off your mind.

With the NetInsight dashboard, Leake & Andersson has transparency into various areas of spending and staff analysis, allowing them to make better financial decisions. The ability to pull vital reports like a worker's compensation audit report, a detailed exception report, and liability reports is crucial to forecasting efforts and running their business.

Small business means those in charge of HR and payroll typically wear many hats around the office. The Leake & Andersson staff didn't have the time to deal with ADP's service call centers, getting passed around from one service representative to another waiting for a resolution. The Netchex team-based service approach eliminates these concerns and assigns each client to a specific service team dedicated to understanding your issues and account. Our unbeatable service and efficient, reliable product makes Netchex the perfect fit for Leake & Andersson.
