NETCHEX

PEOPLE ARE TALKING:
HUMAN RESOURCES MANAGER POINT OF VIEW

DaKota LaCombe, MBA
Human Resource Manager
FAC, Inc.

"I have been using Netchex as an admin for 3 years now. The system has been VERY easy for me to learn and navigate through. And in the rare chance I could not figure something out on my own, my dedicated service team was/is always extremely helpful and responds in a very timely manner. We (all 5 of my companies that I am an Admin for) use ALL of Netchex's products- and I am so grateful!! Netguide, NetRecruiter, NetBenefits are all phenomenal and have been so easy for me to learn, and teach to my managers. Because of their products such as Netguide, my hiring process is streamlined and empowers the employee through self-service. Because of NetBenefits, year-end is not a stressful time for me and ACA no longer scares me to death. Because of NetRecruiter, all of my applicants are in one place and we can easily navigate them from the application to hiring process with the click of a button.

Working with Netchex allows me to be more efficient and use my time more effectively, because Netchex takes care of SO many HR/Benefit tasks. It allows me to be the one person HR department for multiple companies in multiple locations and still be effective and productive, without being too overwhelmed with some of the things other HR departments have to deal with. "

See what all the buzz is about. Let's talk.
