

Comfort King Anti-Static

#910

Dry Area

Anti-Static

Performance Rating ★★★★★

FEATURES

- Protects electronic components from damage and potential data loss
- Static dissipation resistivity of 10^9 ohms per square
- Highly energized Zedlan Foam that combines softness, resilience, and durability for exceptional relief
- Beveled edges reduce tripping hazard

SPECIFICATIONS

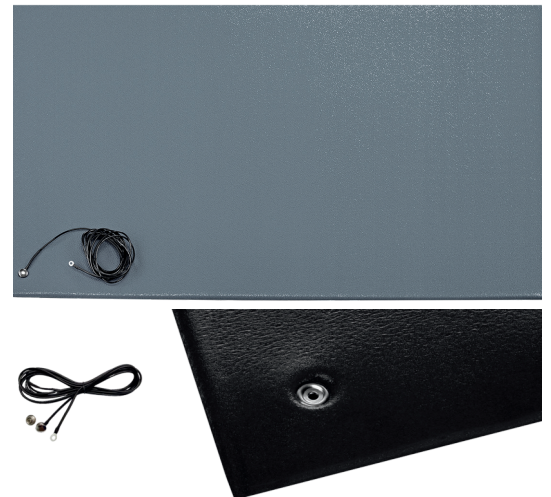

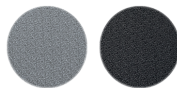

Standard Sizes: 2' x 3', 3' x 5', 3' x 12', 4' x 6', 4' x 12'

Roll Sizes: 2' x 60', 3' x 60', 4' x 60', 6' x 60'

Thickness: 3/8"

Customization: Yes, in 2', 3', 4', 6' widths

Colors: Gray, Black

Stock mats include one grounding cord. For custom cuts and full rolls, the grounding cords must be purchased separately it is recommended that there be one grounding cord for every 10' of matting. Please specify the preferred placement of grounding cords for full rolls and custom cuts 6' custom cuts are not beveled on the cut ends.

Technical Data

- Material: Zedlan Foam
- Electrical resistivity: Approx. 10^9 ohms
- Durometer: 50±5
- Average weight: .72lbs/ft²

Applications: offices and electronic testing stations in laboratories

Crown's Anti-Static Comfort-King features durable Zedlan Foam, lasting three times longer while protecting electronic components. It discharges static and reduces fatigue.
