

## BACKUP AS A SERVICE (BaaS)

Backup offsite,  
monitor & verify  
customers' critical  
data with your  
software of choice.

### OVERVIEW

Probax is focused on enabling IT Providers to offer certified recoverable offsite backups to their clients.

With advanced management, monitoring and reporting tools, integrated with several best-of-breed backup vendors, critical data can be securely stored & recovered fast.

### KEEPING IT SIMPLE

#### FUNCTION

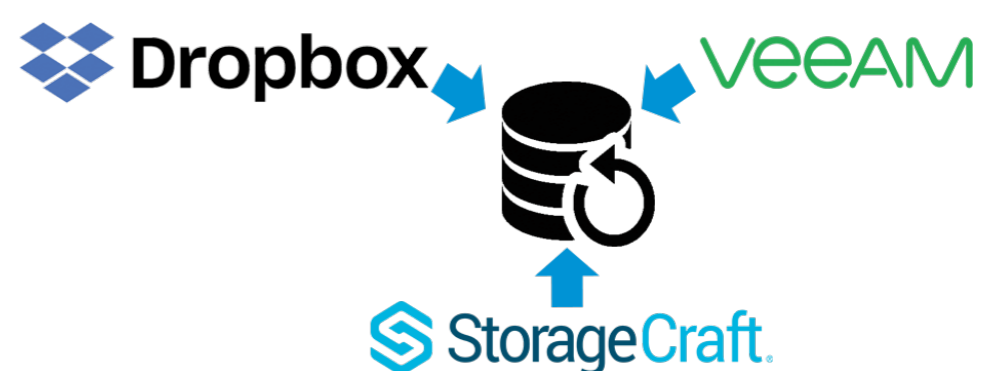

Single platform that integrates with multiple backup & availability vendors, giving you a single-pane-of-glass view of all your backup jobs. Manage, monitor, verify and recover files and folders direct from a centralised portal.

#### SECURITY

Data stored in segregated storage tubs on highly-available storage clusters. The extensive redundancy & resiliency measures across our geographic locations ensures your clients' data is safe.

#### VALUE

Pooled cloud storage across your customer-base & no hidden fees for data operations or retrieval. Probax's intelligent automation frees the time of your techs for more critical tasks, increasing efficiencies of scale across your business.

- Backup to any of our Australian or US data centres
- Retrieve data direct from your local DC
