

WIN WITH DOS

DOS is a comprehensive and ground-breaking framework with a low barrier of entry to interested suppliers and an opportunity to enhance all business objectives in a quick and affordable way. To date over £1.5bn of successful supplier services have been sold through DOS and now you can be part of that success.

With 'Digital Outcomes and Specialists' (DOS) you have an opportunity to get listed by undertaking this yourself (if you have enough time and know how buyers buy). If lucky you may get onto the framework, but being on the framework doesn't mean that you will win any business, and that's a risk which some people take. In our view, an unnecessary risk!

To solve this perplexing dilemma Advice Cloud are pleased to offer **a fully managed service to help you get listed and much more.** Not only will our team of DOS experts get you successfully listed, but they will also **help you win business** as soon as you are set up on the framework.

This is what one of our satisfied clients had to say about DOS:

"As a result of Advice Cloud's support, we were shortlisted for 13 out of 16 opportunities. Without this help we wouldn't have got to stage two so quickly and we wouldn't have been able to win key opportunities."

Adrian Leer, MD at Triad Group Plc

Here's What You Will get With Advice Cloud's Fully Managed Service:
