B4 CAPITAL

CASE STUDY

STAYING AT THE TOP OF THEIR GAME

WITH BUSINESS ONE

Operating for over 20 years, B4 Capital is an international sports and entertainment agency, specialising in media rights distributions, media production, sponsorship, partnerships and event hosting.

Hayley Lucas, UK Operations Manager at B4 Capital commented;

"Edenhouse were extremely helpful on advising us at each step of the implementation process, they have strong knowledge both in SAP and Accountancy. I would highly recommend them for their services."

Heavily reliant on dispersed spreadsheets and word documents, B4 Capital were struggling to gain visibility into their business, and therefore turned to Edenhouse to find a resolution. To allow B4 Capital to manage every aspect of their business as well as streamline their core business processes, Edenhouse implemented SAP Business One, as well as Boyum's Usability Package, which enables B4 Capital to redesign their SAP Business One interface to fit in line with their business and their way of working. Supporting their day-to-day needs through our flexible SAP Support model, we're providing all levels of support to B4 Capital, including resolving incidents and planning their future SAP roadmap.
