

De-risk your cloud journey and embrace digital transformation

Business leaders continue to see the value of a cloud-based strategy to reduce the total cost of ownership of their SAP investment. By making a move to the cloud now, you would provide your business extra security with identity management.

72% of businesses require 99.99% minimum uptime¹

98% of organisations say a single hour of downtime costs over \$100,000²

Current SAP outages cost companies up to **\$1million** per hour³

Reduce total cost of ownership (TCO), with HANA migration services from Edenhouse

To embrace mobility, improve business processes, and enhance productivity, Edenhouse can help you transform your legacy systems and move to HANA on Azure. This enables you to provide a simpler, better user experience across all lines of business, tasks and devices.

2 in 5 businesses stating the rollout of their first solution was easier than expected using Cloud⁴

More than **50%** of global enterprises rely on at least one public cloud platform to drive digital transformation⁵

9 out of 10 IT decision-makers claim legacy systems prevent them from growing and become more efficient⁶

Scale with your business needs on Azure

As today's most comprehensive and flexible cloud platform, Azure is able to accommodate even the largest SAP HANA workloads. Build, test, and deploy securely, with industry-leading performance that scales as your business's needs grow.

120,000 new Azure customer subscriptions per month⁷

90% of Fortune 500 companies use Microsoft Cloud⁸

50 global Azure regions – more than any other cloud provider⁹

Some of our customers have already reduced annual operating costs up to 40% by moving to Azure

Flexible support

Our speed of delivery enables fast response times and industry-leading SLAs on internet fixes. You get a unique and flexible support model based on 30-minute increments, allowing you to use support days for business priority projects if required. This incurs no financial penalty, or lost support days. We ensure clear communications and required security clearance, thanks to our 100% onshore support model.

Unparalleled expertise

Edenhouse offers in-depth knowledge of installing, supporting and migrating SAP solutions. Our business transformation and change management expertise provides the skills and know-how needed to help you embrace change, and embark on digital transformation.

To assess your business challenges with Edenhouse, register your interest today.

Our discovery workshop will help you define your strategic vision. Using results from the SAP toolset we'll provide you with insight into what the obstacles may be, and what your potential project will look like in terms of size, scale, and effort required. You'll also learn how Edenhouse can navigate you through that journey, ensuring your business achieves maximum value.
