

ATTENTION AUTOMOTIVE MATERIALS ENGINEERS,
SUPPLIER QUALITY ENGINEERS & METALLURGISTS!

ATTEND THE
**SURFACE FINISHING
APPLICATIONS FOR
AUTOMOTIVE
WORKSHOP**

JOINTLY HOSTED IN ATLANTA, GA BY:

AIAG

JUNE 20, 2017 | ATLANTA

1:00PM – 5:00PM | Georgia World Congress Center | Room A314

THE WORKSHOP WILL INCLUDE:

THE USE OF PLATED DEPOSITS

- Selecting suitable applications
- Benefits and limitations of specific coatings
- Making material specifications more robust to ensure desired performance
- Overcoming common defects, their quality impact and root cause analysis

APPLYING AIAG CQI-11 AND CQI-12 PLATING AND COATING SYSTEM ASSESSMENTS

- Learn how to apply the CQI to performance objectives in your specifications
- Interpreting CQI results for your performance objectives

THE WORKSHOP IS...

- A key building block for engineers whose enhanced knowledge of surface treatment will improve performance of their manufactured products
- An excellent source of general performance information, as well as an introduction to the Certified Electroplater Finisher (CEF) Program

Visit NASFSURFIN.COM for details on the Full Conference Program.
