

Tufts Summer Research Experience

summer.tufts.edu/high-school/programs/tufts-summer-research-experience

We welcome high school juniors and seniors with prior research experience to join us for six weeks at Tufts under active mentorship to learn hands-on laboratory techniques and/or data and processing skills. Students will work in Tufts research laboratories, actively participating in the rigorous and ethical research currently being explored at Tufts. Students will gain proficiency in authentic research practices as they work side-by-side with the faculty, postdoctoral scholars, and students at Tufts University. Lab time will be supplemented with journal clubs, a poster session, and the opportunity to experience life on the Tufts University campus.

PROGRAM OUTCOMES

- Skills and foundational knowledge critical for success in lab and data-based research
- Enhanced ability to interpret, use, and analyze real experimental data and research from scientific journals
- Increased comfort working in a rigorous laboratory setting and team
- Ability to differentiate the roles that individuals fulfill on an effective research team
- Research poster and lab notes for future applications
- Refined verbal and written communication skills from participating in a real poster session and in-depth conversations with other researchers

At a Glance

Dates:	June 30–August 9, 2019
Location:	Tufts University Medford/Somerville
Eligibility:	Entering Grades 11–12 and must be at least 16 years old by program start
Credit:	Not for credit
Program Fee:	Commuter - \$8,000 Residential - \$11,000 Materials fee - \$200
Financial Aid:	Limited scholarship funding available
App Deadline:	April 1, 2019
